AMENDMENTS TO THE ABSTRACT

Page 67, please replace the original abstract with the new abstract shown on the following page:

ABSTRACT

An image forming apparatus that includes a plurality of image forming cartridges arranged one above another and configured to form an image on a medium. The apparatus also include a transfer belt support unit, including a transfer belt, hingedly attached to the image forming apparatus at a lower end position of the transfer belt support unit and movable between a first position covering the plurality of the image cartridges and a second position uncovering the plurality of the image forming cartridges. Each of the image forming cartridges is configured to be mounted to or dismounted from the image forming apparatus when the transfer belt support unit is in the second position.
